Mohin Uddin

Head of Design | UI/UX Specialist | UI Developer

Head of Design with 5+ years of experience creating user-focused SaaS platforms, web applications, and design systems. Skilled in leading teams, blending creative and technical expertise, and driving product growth through innovative UI/UX strategies. Aspiring entrepreneur with a vision to deliver impactful digital solutions.

Experience

Head of Design – AppsCode Inc.
January 2025 — Today

- Spearhead user experience strategies to create intuitive, accessible designs that improve customer satisfaction.
- Design and develop reusable UI components in Figma, converting them into HTML and Vue.js for seamless integration.
- Manage and maintain the company's dynamic websites using Hugo themes, enhancing functionality and aesthetics.
- Collaborate with the CEO to define and prioritize upcoming features; coordinate with the development team for effective implementation.
- Leading Platform-UI, a robust account/organization management system inspired by GitHub's settings page, overseeing both design and development.

Senior UI/UX Engineer – AppsCode Inc
January 2022 — December 2024

- Designed and implemented stakeholder business ideas into user-centric systems and scalable design frameworks.
- Led the development of multiple web applications and websites, driving user engagement and adoption with over 10M+ Docker downloads and 70,000+ operator deployments.
- Directed a team of five front-end engineers to scale and maintain various applications, ensuring seamless delivery.
- Hosted bi-weekly strategic meetings with leadership to align team efforts with organizational objectives.

Software Engineer (FrontEnd) – AppsCode Inc.
April 2019 — December 2020

- Translated Adobe XD and Photoshop designs into functional, responsive interfaces using HTML5, CSS3, and Vue.js components.

Front End Developer – Cloud Software Solution
August 2018 — February 2019

- Developed dynamic web pages and applications using HTML, CSS, Bootstrap, and jQuery.
- Specialized in creating WordPress themes and responsive designs for diverse client needs.

Freelancer.com & Upwork
February 2017 —

- Currently leading the development of a coaching-related platform, involving UI design and development with HTML, CSS, and Vue.js. UI/UX Design
